

2030 Districts Network Program Rebates Add To Utility Incentives For LEDs

■ LED Tubes Replace T8 Fluorescents

Various types of 50,000-hour rated life, 50% energy saving LED tubes replace T8 tubes.

■ LED Interior and Exterior Fixtures

Replace HID and fluorescent fixtures with high bay, low bay, wall pack and pole lights.

■ LED Downlight Can Retrofit Kits

Downlight kits have 35,000-hour rated life, and cut lighting energy cost up to 80%.

■ LED A19, MR16, PAR, BR, Candelabra

Replace halogen, incandescent, CFL to cut energy and maintenance cost up to 80%.

■ LED for 2- and 4-Pin PL Lamps

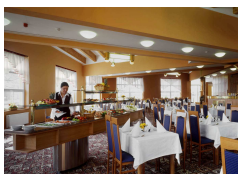

Plug-and-Play LEDs have 50,000-hour rated life, 50% to 70% energy saving.

Office Buildings

Restaurants

Hotels

Retail

Cushman & Wakefield – “We see nothing comparable to the benefits of the BOMA LED program, in addition to the simplicity of the process.”

CBRE – “With 100% rebates, long life lamp to reduce staff time to replace burned out lighting and 80% energy savings, we’re looking at all opportunities.”

Sheraton Hotel – “We have not found any other program that provides this level of rebate, resulting in either no cost or really fast paybacks.”

Ritz Carlton Hotel – “We received long lamp life LEDs with 100% rebate for 80% energy savings and reduced staff time to replace burned out lighting.”

The Economics

- Up to 80% energy savings.
- Maintenance saving from 25-50,000-hour LED life.
- Extra rebates result in **no-cost** or **low-cost** LEDs.

Process to Participate

- Determine existing lighting and receive test LEDs.
- Review Opportunity Report of LEDs and economics.
- Approve project and receive LEDs for installation.
