

As a member of the Burlington 2030 District, your organization will have access to industry knowledge, connections and resources that help increase your property's value and market competitiveness, while reducing costs. With over 8 million square feet committed and over 35 property owner and other business and community organization members, the Burlington 2030 District works to increase building efficiency, reduce operating costs, increase asset value and create a healthier community. Burlington 2030 District membership is free!

TECHNICAL ASSISTANCE

- o **Complimentary energy benchmarking** for one of your buildings | Just like we understand a miles per gallon rating for a vehicle, learn the building efficiency performance of your building. When you understand your building's energy performance, you can then make informed decisions about how and where to invest in order to save energy and money.
- o **Customized Property Energy Plan (PEP)** for one of your buildings | This customized property report includes an energy benchmark for each property, a summary of findings, and a roadmap addressing opportunities for property owners/managers to meet building energy reduction performance goals. Your customized PEP will help you make informed investment decisions.
- o **Complimentary building walk-through with Burlington Electric Department (BED) Energy Services Team Engineer** | BED is offering prioritized financial incentives to Burlington 2030 District members to increase building energy efficiency. A building walk-through allows engineering and energy experts to help you determine how and where to best take advantage of financial incentives.

2030 DISTRICTS MARKETPLACE

- o Access preferred pricing on innovative products that help achieve our goals in the built environment. Current product categories include HVAC controls, advanced metering, LED lighting, high performance windows, electric vehicle chargers, and plug load management devices.

NETWORKING, TRAINING & EDUCATION

- o Connect with your building owner, manager and service provider peers to share insights, knowledge and lessons learned regarding energy performance and cost savings.
- o Receive discounts to attend workshops, trainings and other events. The Burlington 2030 District, along with its non-profit sponsor organization Vermont Green Building Network, hosts several networking, educational, and training events each year.

RECOGNITION

- o Inclusion of your organization or business name on the Burlington 2030 District website and in relevant materials.
- o Case study opportunities, to be featured on our website and in newsletters. Case studies highlight energy efficiency and building improvements, and can be shared with your clients, prospective tenants, and others.
- o Use of the Burlington 2030 District logo on your website and promotional materials.
- o Eligibility for our annual Burlington 2030 District awards program that recognizes Burlington 2030 District property owner members taking meaningful action towards the 2030 performance goals. The awards program will begin in 2020, and will be presented at our annual celebration in front of over 100 real estate and sustainability professionals.
