

Be part of the solution to transform commuter trips.

Invest in your employees today with commuter benefits!

Why

Supporting employees and building occupants through commuter benefits enables owners and managers to attract & retain valuable employees and tenants, contribute to a thriving community, and foster a connected, and resilient region. Increasing commuter benefits to encourage multi-modal transportation models can also lead to better air quality and improved health for property owners, building occupants, and their neighborhoods.

How

Multi-modal strategy approach

- Public transit benefit
- Bikeshare program benefit
- Access to EV
- Rideshare

Here's what you can do...

- Provide free electric vehicle (EV) test drive events through [Drive Electric Cincinnati](#)
- Provide [METRO](#) and [TANK](#) information or subsidized passes to employees
- Provide information on the free rides home support from OKI for emergencies
- Offer [Cincy Red Bike](#) passes
- Offer onsite EV charging stations & bike parking
- Subsidize purchase of electric vehicle
- Subsidize bike & cycling gear for employees

92%

Of miles traveled by 2030 District Commuter survey respondents were in a single-occupancy combustion engine vehicle in an average week

2030 District Commuting Survey Interests

17.2% Public Transit

36.6% Electric Vehicles
Workplace Charging

13.1% Bike Commuting

*Commuter survey results were gathered from over 300 buildings and 3,000+ building occupants as of early 2022

Most employers offer a parking subsidy, but few offer benefits such as public transit, bikeshare, or rideshare.
