

ENERGY REBATES FOR YOUR BUSINESS

PJM Energy Efficient Resource (EER)

Completed or planning a lighting upgrade in your facility?
You may be eligible for regional PJM EER incentives.

How does EER work?

PJM is a regional transmission organization (RTO) that offers incentives to customers who install energy efficient equipment that permanently reduces the use of electricity during peak times. Documentation of the type of new energy-efficient equipment installed, when it was installed, and how it is being used is required.

Enrollment is easy and
there's no cost to you.

Examples of Recent Projects

Company Type	Project Type	Total Project Incentive
Car Wash	Lighting	\$523
Local Fire Department	Lighting Replacement	\$1,505
Food Processing Plant	Lighting	\$3,900
Building Office Complex	T-12 Light Replacement	\$16,772
