Intelligent Infrastructure Solutions

Intelligent Infrastructure is the foundation of a smart building, delivering integrated solutions to leverage data-driven insights. From strategy and design to implementation and commissioning, Siemens is the right technology partner to support you with all of your building technology needs.

Trust Siemens people, processes, and technology

- Local, national, and global experts with over 110 North American branch locations
- On-site support through over 2,000 dedicated technicians
- Digital Service Center with smart building and IT experts

 <h3>Building Automation</h3> <p>Optimize operational efficiency while ensuring a comfortable environment and enhanced occupant experience.</p> <ul style="list-style-type: none"> • Smart Building Open Platform • Integrated Building Management System • Temperature Control • Lighting Control • Shading Control • Total Room Automation • Sensors • Advanced Analytics • Workplace App • Space Utilization • Asset Management • Critical Environments 	 <h3>Communications</h3> <p>Addressing all of your communications needs, including emergency response.</p> <ul style="list-style-type: none"> • Mass Notification • Enterprise Call Manager (VoIP/SIP) • Distributed Antennae System (DAS) • Intercoms/Emergency Call Boxes • Nurse Call 	 <h3>Security</h3> <p>Secure environment protects people, assets, and property and ensures business continuity.</p> <ul style="list-style-type: none"> • Operations Centers/Command and Control Platforms • Intrusion Detection • Perimeter Protection • Access Control • Identity Management • Remote Security Management • Video Surveillance • Video/Security Analytics • Asset Management • Optical/Barrier Turnstiles • Gunshot Detection • Visitor Management • Smart/Wireless Locks • Hosted/Managed Services 	 <h3>Professional Services</h3> <p>Siemens building experts can support you at each step of your smart building journey, from design to execution.</p> <ul style="list-style-type: none"> • Technology Roadmap • Design Assist • Specification Support • BIM Support • Life-cycle Analysis • Energy & Sustainability Consulting • Financing Services • Budgeting Support • Value-Added Engineering • Lean Implementation Planning • IoT Planning/Data Management
 <h3>Network/IT Infrastructure</h3> <p>The right foundation for a high-speed network infrastructure that adapts to future needs.</p> <ul style="list-style-type: none"> • Structured Cabling Plant • Cable Pathway/Fire Stop • IDF/MDF Build-out • Local Area Network • Network Security • Optical Networking • Wireless Network • Lighting and Surge Suppression • WAN • Remote Site Connectivity 	 <h3>Fire and Life Safety</h3> <p>Comprehensive portfolio of solutions to keep people safe and ensure code compliance.</p> <ul style="list-style-type: none"> • Fire Detection, Alarm, and Monitoring • Emergency Voice • Fire Safety Graphical Management Station • Area of Rescue • Smoke Control • Early Warning Fire Detection • Clean Agent Suppression • Public Safety DAS 	 <h3>Energy</h3> <p>Total Energy Management to improve energy efficiency, generate and distribute energy, and manage energy procurement.</p> <ul style="list-style-type: none"> • Chiller Plant Optimization • Electrical Systems • Cogeneration • Solar • Battery Storage • Microgrid 	 <h3>Vertical Market Expertise</h3> <p>Siemens vertical market solutions drive additional value.</p> <ul style="list-style-type: none"> • Healthcare • K-12 • Higher Education • Commercial Office • Mixed Use • Data Centers • Life Science • Hospitality • Oil & Gas • Airports • Manufacturing • Federal, State & Local Government
